Dear new student,

We are so looking forward to having you as part of our Coral Group community. In this guide you will find important student information, recommendations, tips, and many things to know about Santa Barbara and its surrounding areas.

Our goal is to provide a *safe, comfortable and reliable*

housing experience. We warmly welcome students of all nationalities. All our properties are located in safe family neighborhoods downtown Santa Barbara, close to our center and about 10-20 minutes by bike or bus to SBCC.

The Coral Group company is not only locally owned and operated, we take pride in being available, helpful

and resourceful in serving the students in our housing. Looking forward to welcoming you very soon and sharing with you the beautiful, sweet city of Santa Barbara.

Recommendations for successful communal living:

Since you will be sharing a home with other students and some also sharing a room, the following instructions are our recommendations for successful communal living while in our housing:

1. Students are expected to look after the **cleanliness** of their own bedroom and/or bathroom. It is important to remember that although this is your own space, this is also part of your housemates' space as well and must be kept in a clean condition for all to enjoy. The Coral Group cleaners will clean your apartment/house/studio every two weeks and will clean the bathrooms, kitchens, floors and will make beds only. Students will be responsible for dusting, washing dishes and any other cleaning necessary. Trash must be taken out regularly, as leaving trash out will attract bugs. California is known to have many bugs including: ants, cockroaches, spiders, worms etc. If the trash is left inside the apartments, the bugs will come looking for food. It is vital you make a schedule for taking the trash out. For issues with bug infestations, any need to hire exterminators will be deducted from student deposits.

2. A very common universal issue among young people is **WASHING DISHES**. It is required to wash your dishes after every use. This way the kitchen is left clean for the next person using it. The cleaners will not clean your dishes. So, please make sure to keep the kitchen as clean as you would appreciate finding it yourself.

3. In American culture, like in many other cultures, the entire family participate in '**chores**' of some kind. Students should expect to share in the responsibilities of the overall tidiness of the home. For example, the cleaning of the livingroom, bathroom, dining room (especially after meals) should be a communal effort. We will help you get into a routine together, and assign each other duties, so that communal living will be at its finest!

4. **Quiet time** is from 10:00pm - 8:00am. By law in downtown Santa Barbara the quiet time is 10:00pm. Neighbors who hear loud music, yelling etc can call the police to report a noise violation. Students must respect the home during any late hours (after 10pm) and must be willing to return home as quietly as possible so as not to disturb the other students.

5. Drinking is only legal in the United States for individuals older than **21 years**. If under age students are caught drinking alcohol in public or outside homes, the fine is around \$500 and classes are required as part of the fine. I know... it stinks, but that is the law in the US.

6. Students who **smoke** must always and *only* smoke outside. Please discuss with Mia Willson which is the best place to smoke. Cigarettes must be disposed of in a can with water at all times. For anyone smoking inside the apartments the minimum fee is \$350.

7. Any **damages** to the property (walls, linens, kitchenware, furniture etc.) must be reported to a Coral Group representative as soon as possible. We absolutely understand accidents! When you inform us right away, we can help you with any costs incurred. However, any damages that

eventually proves to be the student's fault must be repaired to its original state and cost must be entirely covered by the student. The Coral Group is not responsible for any damage done to property, any personal items or physical persons while residing under our agreement. It is important to purchase personal insurance for personal items in case of damage, loss or theft. The Coral Group is at no time responsible for damages, loss or theft of any kind that may occur while living in our housing.

8. **Communication** is extremely important when living with others. Students must be able to communicate honestly, openly and without fear of judgement at all times. Communicating your needs and levels of comfort are always important- if you do not tell them, they will not know! If you are having a situation with a housemate that you are not able to deal with on your own, or are not comfortable dealing with, please let us know and we can assist you in dealing with the problem. Our goal is for everyone to feel able to communicate their needs as well as find common ground in order to live together successfully.

9. You may have **friends** that are visiting and want to stay with you at your house. You are allowed guests **7 days** per semester maximum **ONLY** if you first speak with your housemates and all are comfortable with the guest in the home. After 5 days, your guests will need to pay \$15 per day for utilities, mainly water usage. We have a blow up bed we offer our guests, so let us know and you can borrow the bed, sheets and pillow for your visiting friends. Please check in with Kristine, Crystal or Mia when you have guests staying at the properties so we can expect to see a new face in our community.

Recommendations for successful communal living cont'd:

10. **Showers** must not exceed 10 minutes as water in Santa Barbara is very expensive. Also, you want to save enough hot water for your housemates. Your rent per month includes all utilities including water. Because of the drought in California and the incredible price of water, if any apartment is overusing water, there will be an additional charge. Please be mindful of your water consumption. Please remember personal toiletries must be purchased on your own.

11. You will be given a set of **keys** upon your arrival. Please do not lose these keys and return to management when you depart. Any keys that are lost will be replaced at a fee of \$25.

12. Riviera View House Wifi name: B62DD1 OR B62DD2
Password: 52T76B2B08493

Using several devices at once, downloading movies will slow the internet usage for others on the same property. Please be mindful when using several devices at one time. It is illegal to download any music or movies from illegal sources on the internet. Our internet carrier, COX, will turn our internet completely off if you illegally download any material. It can take up to one week to get COX to turn the internet service back on. **PLEASE DO NOT DOWNLOAD ILLEGAL MATERIAL FROM THE INTERNET.**

What to know about where we live

Since you are attending SBCC, a bus pass is included in your tuition costs. This allows you to ride the bus for free with a student ID card. You may decide to buy a car so please let us know so we can possibly assign you a parking spot. It is illegal to drive any vehicle without current auto insurance, registration and valid driver's license. Please visit the [Department of Motor Vehicles](#) for more information.

Keeping our city clean is important to people in Santa Barbara. Disposing of trash is illegal if done so improperly. [Littering](#) can result in a fine.

Smoking is not common among Santa Barbara's local community so it is most important to throw cigarettes in the trash and smoke in designated places only.

Buying, selling, using drugs is illegal and prohibited at all times. Marijuana is legal for 21+ and **only** allowed outside at Downtown Apartments and Victorian House.

Friendliness and eye contact is important when living in our community. Eye contact is a sign that there is an understanding of what a person is saying and is a sign of respect. Local people are very friendly and chatty so don't be surprised if you get into a conversation with a total stranger. Nonetheless, always be safe of who you interact with and never give anyone your personal information.

When dining out, leaving a 'tip' is the customer's way of showing that they appreciated and were happy with the service.

Working in the service industry is a common way for local people to earn their living. Tips are usually between 15-20 % of the total bill.
